OBJECTIVE

A highly motivated student in the Computer Programming and Analysis program at Humber Polytechnic, seeking a co-op position in summer 2025 in the fields of full-stack development, web design, IT support, data analysis, and technical support roles.

SKILLS

- **Front-End Development:** HTML, CSS, JavaScript
- **Database Management:** SQL
- **Version Control:** Git, GitHub
- **Soft Skills:** Efficient Multitasking, Collaborative Communication, Flexible Problem-Solving

EDUCATION

Humber Polytechnic, Toronto

Advance Diploma in Computer Programming and Analysis   Jan 2024 - April 2026

- Dean's Honor List for Winter 2024, Summer 2024
- Key Courses: Web Development Foundations, Object-Oriented Programming, Data Structures and Algorithms, Database Design

PROJECTS

MINIMALIST   March 2024
Github link: https://github.com/MuhammadManda/minimalist-website-project

- Developed a minimalist, responsive interior design website showcasing elegant furniture, using Bootstrap's grid system to ensure seamless adaptability across devices.
- Designed an intuitive navigation bar with a hamburger menu for mobile screens, enhancing user experience.
- Customized and tested navigation bar responsiveness, ensuring a smooth experience across different devices and resolutions.

CARESHARE
Github link: https://github.com/ArsenValeevSectionC/D4H   Aug 2024

- Collaborated on the creation of Carshare, a charity-focused website project designed to showcase skills in web development and user-centered design.
- Incorporated media queries to optimize layout and navigation for both desktop and mobile users
- Developed forms to facilitate user engagement and communication with site owners.
